

ITL Evo Sol R Series Inks - Roland

product specification

ITL EVOsol inks are the next generation of Eco Solvent products designed to offer a true alternative for digital printers with no compromise, these inks are specifically formulated to offer bright colours, abrasion resistance and excellent printing performance.

At last customers who use an "Eco Solvent ink" have a product which is safe, non hazardous with a low odour which is up to the job. IG-EVOsol inks are compatible with the OEM inks providing a quick, simple and clean change over without the need for flushing.

Extensive testing is carried out on all ITL inks during both development and production phases ensuring that all inks are up to the most demanding of print jobs.

Designed and engineered specifically for each printer model and finely tuned for superior machine performance and reliability.

product	colour	life	volume	price
Evo Sol R Series Ink - Roland	Cyan Black Light Magenta Light Cyan Magenta Yellow	UV light resistant up to 2 years outdoor laminated**	440ml	£49.95

Flush				
Evo Sol Flush			220ml	£29.95
