

Over 5400 Fully Scaleable Vehicle Templates

Now you can design a graphic for almost any vehicle without leaving your office. With over 5400 exact to scale vehicle templates you won't have to waste time journeying to, measuring or drawing your clients' vehicles again.

Vehicle Outlines 2008 contains an outline for almost every conceivable car, van and lorry - it even contains bus outlines. So whatever vehicle you're asked to work on you'll find its dimensions instantly at hand. The outlines are vector drawn in AI format and can be imported into practically any graphic software program, including CorelDRAW. Vehicle Outlines is MAC and PC compatible.
