

Avery Dennison MPI™ 3026 Hi-tack

Short-term indoor and outdoor
promotions on challenging substrates

MPI 3026 Hi-tack is a new short term digital inkjet media designed for slightly structured and apolar substrates, allowing you to target new and more difficult promotional applications.

Features and benefits

- S95-micron white film with matt finish – ideal for indoor promotional graphics, i.e. interior walls
- Special Hi-tack adhesive gives more reliable adhesion on more difficult, slightly structured and apolar substrates
- Excellent printability and handling on selected printers
- Easy cutting and application

Recommended uses

- Short-term indoor & outdoor promotional graphics
- Applications with slightly structured surfaces and watercraft
- Demanding apolar surfaces (polyethylene and polypropylene)
